Information about our use of cookies

What are cookies?

A cookie is a small text file which is placed onto your computer (or other electronic device) when you access our website to collect standard internet log information and visitor behaviour information.

Cookies allow websites to, among other things, store and keep track of the browsing activities of a user. Depending on the information they contain, and on how you operate your computer, cookies can be used to recognise a user.

There are two main types of cookie:

- **Session cookies**—these are deleted when you finish browsing a website and are not stored on your computer longer than this; and
- **Persistent cookies**—these are stored on your computer after you have finished using a website so that the website provider can remember your preferences the next time you use it

To find out more about cookies, including how to see what cookies have been set and how to manage and delete them, visit www.allaboutcookies.org.

The information we obtain from our use of cookies will not usually contain your personal data. Although we may obtain information about your computer or other electronic device such as your IP address, your browser and/or other internet log information, this will not usually identify you personally. In certain circumstances we may collect personal information about you—but only where you voluntarily provide it e.g. by completing an online form or where you purchase goods or services from us.

Third-party cookies

Please note that third parties (including, for example, advertising networks and providers of external services like web traffic analysis services) may also use cookies, over which we have no control. These third parties are responsible for the cookies they set on our site. If you want further information please go to the website for the relevant third party. You will find additional information in the table below.

How do we use cookies?

We use cookies on this website to:

- recognise you whenever you visit this website (this speeds up your access to the website as you do not have to log in each time);
- obtain information about your preferences, online movements and use of the internet;
- carry out research and statistical analysis to help improve our content, products and services and to help us better understand our customer requirements and interests;
- target our marketing and advertising campaigns and those of our partners more effectively by providing interest-based advertisements that are personalised to your interests; and
- make your online experience more efficient and enjoyable.
